INDEX OF DOCUMENTS

This Index provides an overview of the documents that exist as part of the Totality ecosystem. Some documents use the same Defined Terms, but these Terms may be defined differently depending on the document's purpose. Accordingly, Defined Terms should be given the definition assigned to it in each specific document. None of these documents constitute legal advice.

I. Documents for Project Developers

The below documents are to be used by Project Developers.

Document	Purpose
Greenhouse Gases Abatement Methodology and Appendices	To be used by Project Developers undertaking Well Plugging Projects to generate Carbon Credits and Co-Benefits
Letter of Explanation	To be used by Project Developers in conjunction with the P-4 Form to explain that the current Well operator's signature could not be obtained on the P-4 form and that the Project Developer has a Good Faith Claim to operate the Well
Term Mineral Deed	To be used by Project Developers to demonstrate that the Project Developer has a Possessory Right to the Mineral Estate of the Abandoned Well. Additional documentation may also be required to make such a demonstration. Likewise, use of the Term Mineral Deed is not mandatory to make such a demonstration—other documentation may also be used.
Well Plugging Activities Covenant	To be used by Project Developers to demonstrate that they will not return the Well to production.
Right to Enter Agreement	To be used by Project Developers to demonstrate that they have permission to access the Well and surrounding Site
Totality Registry Project Developer Agreement	To be used by Project Developers to List Projects on the Totality Registry
